Pro Safari Dive Center is located in BQ Mall in Tagbilaran City and is the only retail dive shop in the city.

Scuba regulator repairs can be very difficult to accomplish in Bohol. The nearest authorized Scubapro dealer/repair is on the neighbor island of Cebu. Should you need an emergency repair to your first or second stage (depending on the brand) call or text Divemaster "Belyong" in Alona Beach at cell 09092651068. He has been trained in repairing several regulator brands and may be able to save your dive vacation.

TIP - Next time you have your regulator serviced keep the old parts and take them with you when traveling. They may come in handy.

Map not to scale - All area facilities not shown
